

We challenge the tooling your advisers recommend. Then we build what they should have.

Your tax-tech adviser, end to end. Fixed deliverables, transparent methodology, software deployed into your own infrastructure.

The problem

Tax teams get plenty of advice: a Big-4 firm, a boutique, an internal review. What is scarce is someone who actually implements it, in the client's own systems, with a fixed deliverable on the table rather than another round of advice.

How we engage

- Fixed-scope assignments (4-12 weeks) with a deliverable on the table, not another advisory memo.
- Fractional Tax Technology & Transformation Director: ongoing tax technology judgement, retained on subscription, no full-time hire needed.
- Build-and-hand-over, with full documentation, into your own environment. You keep it and can run it.
- Second opinion on delivery: we tell you plainly whether a recommended tool, architecture or automation is buildable and proportionate. We own four tools ourselves and will still tell you when none of them is the answer.

TIF Synergy is a specialist tax and tax technology practice, built by people who have lived within the tax domain. The TIF Suite is our own software, with no licence fee for an in-house tax function; an advisory firm licensing it for its own fee-earners is quoted a subscription in writing. Delivery, including upskilling your people, is the product.

Proof points

4

Engagement models, matched to how much control you keep in-house

15+

Years in tax and technology, including Big Four experience

Who it's for

Group Tax Director, Head of Tax, Senior Tax Manager or CFO at a group with meaningful cross-border tax complexity, typically where Pillar Two obligations are live. Also relevant to tax-advisory boutiques who want to extend delivery capacity with technology rather than headcount.

Got a tax technology problem? Let's talk for 15 minutes.

No pitch, no obligation, just a focused conversation about where technology could take the manual work out of your tax function.

TIF Synergy delivers technology and implementation. Where a tax-technical position is in question, responsibility stays with your qualified adviser, a treatment that is theirs to set, not one we have taken for them. TIF's technology delivery does not itself constitute tax advice.

The tools described here are provided as a working aid. You remain responsible for reviewing every output before you rely on it. Nothing here is a substitute for advice from a qualified tax adviser in the relevant jurisdiction. The tools are provided as is, without warranty, and their use is governed by their terms of use.

TIF Synergy is a trading name of Blauw Belastingen B.V., established at Oudezijds Achterburgwal 173, 1012 DJ Amsterdam, the Netherlands, registered with the Dutch Chamber of Commerce (KVK) under number 58905375, VAT NL853231886B01. TIF Synergy Ireland Limited is a private company limited by shares registered in Ireland, company registration number 821025. Registered office: 77 Camden Street Lower, D02 XE80, Dublin, Ireland. · info@tifsynergy.com · tifsynergy.com · Version 2026-09. The current version of this document is at tifsynergy.com/resources/.
